

¿Por qué sonido termina?

TERMINA EN VOCALES

Trabajamos Conciencia Fonémica
Material manipulativo

TERMINA EN....

INSTRUCCIONES

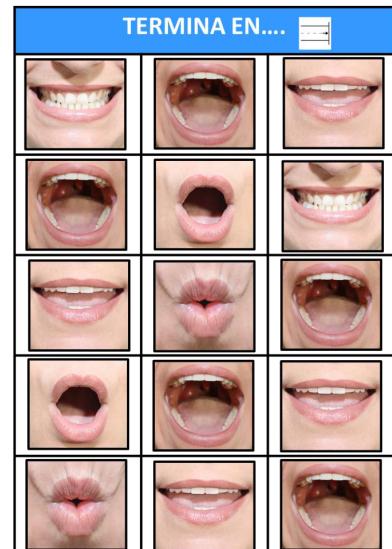

OBJETIVO GENERAL:

Mejorar o desarrollar la conciencia fonémica. La conciencia fonémica busca jugar con las unidades mínimas de las palabras para adquirir habilidades que nos permitan segmentar y mezclar los fonemas para formar sílabas y palabras.

OBJETIVO ESPECÍFICO: Identificar palabras que finalicen por un sonido vocálico determinado.

DESARROLLO DE LA ACTIVIDAD:

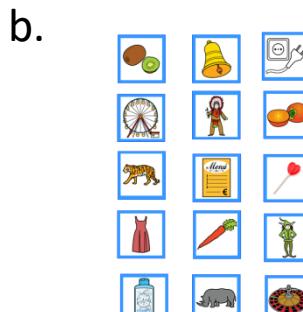

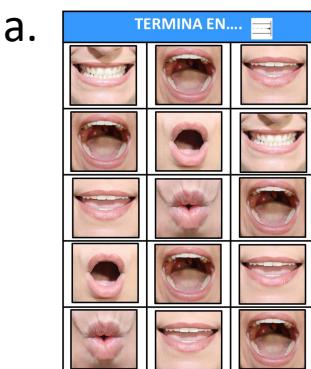

Se le proporciona al alumno/a un tablero con las boquitas y las palabras que le corresponden a dicho tablero según el color que tengan. De esta forma, el niño/a tendrá que identificar cuál es el sonido final de cada palabra y asociarlo a su articulema correspondiente, tal y como se ve en el ejemplo: tenemos la imagen de “kiwi”, por lo tanto, tendrá que ponerla encima del sonido “i”, puesto que es por el que termina la palabra.

AYUDA PARA LA PREPARACIÓN DEL MATERIAL:

El material consta de tres partes:

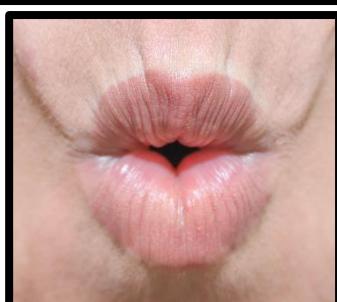

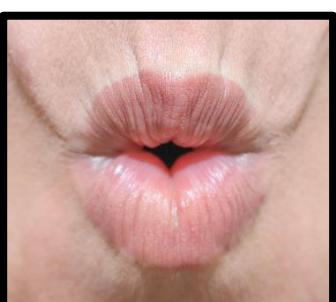

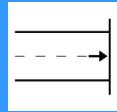

- 6 tableros con los articulemas, cada uno de un color (recomendamos plastificarlo).
- Vocabulario correspondiente a cada uno de los tableros que se identifican por tener el mismo color. Estos pictogramas se recortarán para que queden independientes los unos de los otros.
- Plantillas de corrección de cada tablero para comprobar si el alumno/a lo ha hecho correctamente y para solventar cualquier duda que el vocabulario pudiera ocasionar. Estas también tienen el mismo color para que se identifiquen con los tableros y palabras con las que se corresponden.

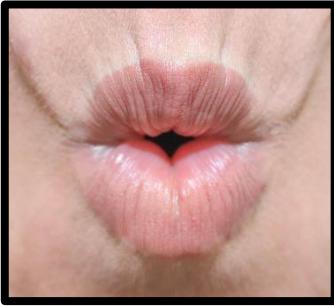

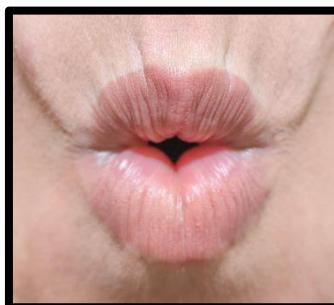

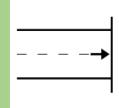

RESULTADOS TERMINA EN....		
Kiwi	Campana	Enchufe
Noria	Indio	Caqui
Tigre	Menú	Prueta
Vestido	Zanahoria	Duende
Champú	Rinoceronte	Prueta

NOTA: en los tableros se encontrarán algunos articulemas repetidos y, por consecuencia, palabras que terminan por el mismo sonido. Será correcto que el alumno/a coloque un pictograma que termina por ese fonema en otra posición diferente de lo que pone en la plantilla de corrección.
